

Student Grades/GPA

Dear Students

Please note that:

- Grades posted on myCourses use the decimal grading system. Once the grades for all components of a course are finalized, the grades are rounded off in order to be converted into a GPA (i.e., year-end grade of 74.5 or higher, it will be converted to 80%).
- Exam reviews are for the purpose of allowing students the opportunity to see their errors in an exam. This exercise is not intended to allow students to explore ways where they can gain extra points in order to increase their GPA.
- Course Directors are instructed to notify the Associate Dean – Academic Affairs of any grade change after submission and should have a valid reason to request a change for a student grade.

Thank you,

Patricia
