

Table Clinics 2014 Submissions

Dear students,

As we have mentioned in previous emails, we are in the process of re-designing the Table Clinic event. The new deadline to submit your completed Research protocol (please find the Template attached) is September 13, 2013.

We are emailing the template to you early so that you can work on your project at your convenience over the summer.

Keep in mind...

- The 2014 Table Clinics presentation will take place in January 2014 (exact date and location to be determined)
- **This year it is mandatory to have a supervisor overlooking your project.** The supervisor may be a clinical instructor or a researcher (the list of researchers is on the McGill Dentistry Faculty website).

Students who have already presented at a previous table clinic event are exempted.

Students who are planning to present their summer research project at the January 2014 event must fill out the attached template with the input of their supervisor(s).

If you are unable to find a supervisor, please contact Dr. Muller ASAP.

Regards,

Dr Zovinar Der Khatchadourian

Dr Mary Ellen Macdonald

Dr Katia Muller
